

LEADERSHIP

Mission

The Gordon Tech Young Women's Leadership Academy desires to invest in the lives of young women by providing opportunities for them to discover and experience effective leadership, relational, and management skills that will enable them for success in life.

Our vision is to see the young women at Gordon Tech develop into responsible and confident young adults that go on to college better prepared to utilize all of the opportunities that come their way. The Young Women's Leadership Academy will equip women with the real-world skills that are needed to be an effective leader and role-model.

EXPERIENCE

Weekly Seminars/Discussions

Weekly discussions will be covering a variety of topics that are applicable to young women, including:

- ◆health and nutrition
- ◆interview skills
- ◆conflict management
- ◆leadership at GT
- ◆public speaking
- ◆time management
- ◆financial issues
- ◆book discussions

Monthly Speakers

Once a month, we will have speakers in to share their experience and wisdom. We will have a variety of men and women speaking about their opportunities and sharing their advice on how they are leaders in their own lives. We encourage young ladies and women from all walks of life to attend.

OPPORTUNITY

Internships

Senior girls will have the opportunity to be placed in second semester internships and underclassmen will have an opportunity for summer internships. Internship opportunities will give students an honest look inside the workings of businesses, non-profits and political organizations right here in Chicago. These opportunities will give students the experience they need to help them discover what areas of interest they may want to study in college as well as practical application of leadership skills.

Quarterly Events

The Leadership Academy will attend at least one event each quarter. The goal is to utilize other resources in Chicago that will encourage and challenge our young women.
